The **Sky Sentry** is a uniquely engineered wall-mounted fume extractor that is built specifically for small or limited workspace environments where air purification is desired. This source capture system features a free-hanging, self-supportive flex arm that can easily be maneuvered by the operator to their desired location. Installation is made easy with the included wall-mounting kit and will take up minimal space.

Typical applications include: soldering fumes, particulate, removal of organic vapors, solvent and epoxy fumes, chemical fumes, light grinding, and various other industrial processes where a wall mounted fume extractor is needed.

Depending on the application, several filter combinations can be utilized. Typical filtration media include: HEPA [up to 99.97% efficient on particles 0.3 microns and larger], ASHRAE [up to 95% efficient on particles 0.5 microns and larger], Activated Carbon, and specialty-blended filtration media [i.e. Acid Gas, Mercury, Aldehyde, Ammonia].

This **Sky Sentry** Fume Extractor combines quiet operation, energy-efficient technology, and a unique mounting option that creates an effective solution for many applications that require fume and particulate removal.

Larger models are available [SS-300-SKY & SS-400-SKY].
